

# Open mountain huts in Grossarl & Hüttschlag

## Dear hikers,

the alpine summer in Grossarltal is over. Almost all the mountain huts in Grossarltal are closed in winter, as the huts are not designed for the cold temperatures and the animals now enjoy the winter in the warm barn on the farm.

## Loosbühelalm: also open in winter

The Loosbühelalm is also open in winter. It is ideal for winter hikers, ski tourers, snowshoe hikers and tobogganists.

Opening hours under:

## Tour description to Loosbühelalm

## When do the first mountain huts open in spring?

The opening of the mountain huts depends heavily on the weather and the snow situation on the mountain. Experience shows that the first mountain huts open in mid-May and most of them are open from mid-June.

As soon as there is exact information about the open mountain huts, you will find the current list here.
